HERRING'S PATENT SAFETY WINDOW.—No improvement ever offered the advantages to builders and the public. It will positively add 5 to 10 per cent. to all rooms having it; repay the cost every two years; abolish all summer heating and fresh-creating and repairing. It is in full use on two 7-air different ships, forms a complete ventilator and sun blind; all simple, cheap, and effective. Apply for licenses and to inspect its real merits, to HERRING'S Patent Steam Bed-Feather Factory, 14, Bunhill-row, London.

TO BUILDERS, PAINTERS, AND OTHERS.

MESSRS. WOOD and Co., GRAINERS, and WRITERS to the Trade only. 70, York Road, Lambeth; and 41, St. Cross Street, Blackfriar's Road.

AS TO RAILWAY CONTRACTORS AND BUILDERS.

HENRY WILLIAMS, House and Decorative Painter and Writer, 12, Great Dorset-street, Chesapside, London, having attained extensive experience in the ornamental work, together with the Writing of Inscription Tablets &c., which are peculiarly adapted for Railway stations.

A PRIZE may be obtained by one of those applications, which appear made to certain conditions, viz.: The name of any one principal Railway Station will be executed, being the nearest to, and not exceeding 150 miles from London; and also, to be in that advanced state of completion which will admit of an early commencement in the process of the painting in conjunction with the prize.

H. W. guarantees that the ground-work, in depth of tone and beauty of colouring, will totally eclipse all former inventions. To insure the prize all applications must be tendered on or before FRIDAY, the 27th day of August, bearing the letter A.

WALLIS'S PATENT LIQUID WOOD KNOTTING.—This newly-discovered Liquid Composition, which Messrs. Geo. and Thos. Wallis have the satisfaction of introducing to the Trade, possesses the important qualification of effectually stopping Knots in Wood, however bad, and preventing them coming through during the paint above.

Many substances have been used and much time spent in endeavouring to find a cure for a bad Knot, but hitherto without success. Messrs. Wallis therefore feel much pleasure in offering to the public an article so long and anxiously called for.

In the application, skill is not required: it is put on to the work with a brush like common paint, can be used in all climates and situations, and does not require heat.

Sold wholesale and retail, by Messrs. G. and T. Wallis, Varnish, Japan, and Colour Manufacturers, No. 64, Long Acre.

TODD'S PATENT PROTOXIDE PAINT manufactured by CHAS. FRANCIS and SONS, CEMENT WORKS, NINE ELMS, LONDON.

The properties of this Paint are peculiar for preventing iron from oxidation and wood from decay, and consequently from damp; it neither cracks nor blisters with the hottest sun and is therefore most valuable for Railways, Boilers, Steam, Gas, and Water-pipes; Hothouses, Forcing houses, and for shipping. Its adhesion is so great to iron and wood, that the hardest friction will scarcely remove it. It prevents vegetation on stuccoed buildings, and is not affected by spray of sea water.

PROTOXIDE PAINT is sold ground in oil, and, compared with white lead, its property of concealing is as 75 to 56, so that one hundred weight is equal to one and a half of lead. It works well under the brush, and forms with oil an unctuous and coherent mixture. If blended with other paints it has a softer tone than white lead. For houses painted during occupation, it is most preferable, being perfectly inodorous.

ECONOMY! ECONOMY!

STEPHENS' DYES FOR STAINING WOOD, as a SUBSTITUTE for PAINT. For Decorating Churches, Large Public Rooms and Theatres, as well as Private Dwellings.

When economy in expenditure of material and time is of importance, these Dyes will be found of the greatest advantage, as they give a rich colour to plain woods, while they reflect all the beauty of the natural graining, which is so superior to imitations by art, and, at the same time, shield the disagreeable smell and deleterious consequences of paint.

The Dyes, or Stains, are prepared and sold by HENRY STEPHENS, 24, Stamford-street, Blackfriars-road, London, in bottles of 6d. and 1s. each, and at 10s. per gallon. The 6d. Colour may be obtained in powder at 8s. per lb., which dissolves in water to form the liquid, and 1lb. will make one gallon of stain.—N.B. The trade supplied.

Sold also at the Office of "The Builder," 2, York-street, Covent-garden, London.

PORTER'S CORRUGATED and PATENT GALVANIZED IRON ROOFING WORKS, Southwark-bridge-road (the Gruter), Southwark. At the above Works, the Public are secure in having the superior make, and by the Patent process of galvanizing Iron as first introduced into this Country, with many improvements in its application to Roofs, Buildings &c. Every description of Building, Railway, and other Iron, both finished and manufactured of the best quality. Iron Fence and Hurdles as usual.—The Trade Supplied.

PUMPS.—The attention of Architects, Builders, Contractors, Brickmakers, Barge and ship Builders, and others, are respectfully requested to M. A. RICHARDS' superior System of Pumps for Roads, Gardens, Excavations, Brickfields, Liquid Manure, Barges and Ships, in Wrought or Cast Iron, bored perfectly true by Machinery. Hydraulic Lift Pumps for Wells of any depth. Single and Double Barrel Pumps up to inch kept for hire. Estimates given to Drawings if required.—M. A. RICHARDS, 3, Old Barge house-street, Commercial-road, Lambeth.

HOT WATER APPARATUS.—The attention of architects, builders, and others is respectfully requested to BENJAMIN FOWLER'S superior method of heating churches and chapels, halls staircases, conservatories, forcing and greenhouses, manufactories, and warehouses, kilns, rooms for drying timber, &c., and every variety of purpose for which artificial heat is required. Within the last twenty years some hundreds of buildings have been heated upon this plan, and the parties for whom they were executed are constantly expressing their satisfaction, also their willingness to vouch for their efficiency. An improved wrought-iron boiler, which requires no brickwork, may be seen in action upon the premises.—BENJAMIN FOWLER, 63, Dorset street, Fleet-street.

JOSEPH GLOVER,

Late HENDRY and GLOVER,

BEGS to inform his Customers, that the PARTNERSHIP between him and WM. HENDRY is DISSOLVED, and that the whole of the business is now solely his; and in consequence of which, he has been enabled to make such arrangements and improvements that they will be insured every advantage in quality, price, and punctuality. The stock of patterns has been re-arranged, to give every facility for selection. A stock of Rain water Pipes, Heads, Shoes, &c.

CHUBB'S IRON DOORS AND FIRE-PROOF SAFES.

C. CHUBB and SON having just erected a Steam Engine and extensive Machinery to meet the increasing demand for articles of their Manufacture, they beg to inform Architects and Builders that they are now enabled to manufacture Wrought Iron doors for strong rooms and other purposes, and Fireproof Safes at a great reduction in price, and of very superior quality. All their Iron Doors and Safes are fitted with C. CHUBB and SON'S last DETECTOR LOCKS.

57, St. Paul's Church-yard, London.

TO ARCHITECTS AND SURVEYORS.

C. CHUBB and SON having ascertained that some builders are in the habit of substituting inferior and insecure Iron doors for strong rooms, when "CHUBB'S MAKE" are ordered, they call the attention of Architects to the subject. In all specifications where it is intended to have the articles manufactured by C. CHUBB and SON, they respectfully request that Architects will specify "Iron doors manufactured by C. CHUBB and SON, of St. Paul's Church-yard," and to require on the completion of the work, a certificate from C. CHUBB and SON that the doors are of their manufacture.

HEAL and SON have just completed the erection of Machinery for the purifying of feathers on a new principle by which the offensive properties of the quill are evaporated and carried off in steam; thereby not only are the impurities of the feather itself entirely removed, but they are rendered quite free from the unpleasant smell of the ooze which all new feathers are subject to that are dressed in the ordinary way.

Old Beds re-dressed by this process are perfectly free from all impurities, and by expanding the feathers the bulk is greatly increased, and consequently the Bed is rendered much softer. The following are the prices of New Feathers:—

Mixed, per lb.	1s. 6d.	Foreign Grey Goose	1s. 8d.
Grey Goose	2s. 6d.	Best Foreign Grey Goose	3s. 0d.
Best Irish White Goose	2s. 6d.	Best Dantzic White Goose	3s. 0d.

HEAL and SON'S LIST OF BEDDING, containing full particulars of Weights, Sizes, and Prices, sent free by post, on application at their Establishment, 196, opposite the Chapel, Tottenham-court-road.

SEYSSEL ASPHALTE COMPANY.

CLARIDGE'S  PATENT.

Established March, 1838, for working the Mineral Asphalte Rock of Pyrimont Seyssel, a Bituminous Rock, situate on the Eastern side of the Jura.

Principal Depots, ROUEN, MARSEILLES, and STANGATE, Surrey side of Westminster Bridge, London.

THE ASPHALTE of SEYSSEL has been extensively used since March, 1838, for the following useful purposes:—

Foot Pavements.
Kitchen Floors particularly where it is essential to keep damps from rising.
Garden Walks and Terraces.
Carriage Drives.
Coach houses and Stabling.
Dog-kennels.
Barn Floors.
Granaries.
Tan room Floors.
Malt-house Floors.
Pigeries, &c. &c.
Covering of Railroad and other Arches.
The only effectual mode to prevent the percolation of water, which also renders it very appropriate for the Lining of Tanks, Fish ponds, &c. &c.

The attention of RAILWAY ENGINEERS, ARCHITECTS, and CONTRACTORS is particularly directed to the great advantage to be derived from the application of SEYSSEL ASPHALTE.

The arrangements of the SEYSSEL ASPHALTE COMPANY, CLARIDGE'S PATENT, enable it to execute Works of any extent with the greatest promptitude.

In order to guard against the use of spurious materials, it is important that all applications for Works to be executed, be made direct to the Company; and as a further protection, it is suggested that Engineers, Architects, and Contractors should require a CERTIFICATE from the Company that the proper description of material has been used.

Information may be obtained as to all Works which have been executed by the Company since its establishment in 1838, which will prove that the failure of many Works represented to have been done with the genuine material, has resulted from the substitution of a spurious one.

I. FARRELL, Secretary.

Seyssel Asphalte Company, Stangate, London.
